

# ***DAE Industries***

***Superior customer service and value***

*Engine Stands*

*Access Stands*

*Docking Systems*

DAE Industries, a Malabar Company, designs and manufactures commercial and military aircraft maintenance equipment and is a Boeing tooling licensee. DAE specializes in the design and manufacture of engine transport stands, maintenance access stands, maintenance docking systems, and aircraft tooling. DAE excels in custom design solutions for challenging customer applications. From the sale or lease of new equipment to the refurbishment of existing products, DAE is here to support your equipment needs whenever and wherever the need arises.

## Manufacturing and Service Capabilities

- Our 66,000 SF Louisville facility is equipped with CNC machine tools, welding, fabrication and test equipment
- Experienced service technicians provide complete product support and on-site installation

## Product Lines and Services

- **DAE Engine Stands** provide reliable and cost effective engine transportation, maintenance, and storage with the most competitive delivery available
- **DAE Access Stands** offer simple reliable operation and maintenance of specific aircraft systems
- **DAE Docking Systems** are the most sophisticated and robust work platforms available for heavy aircraft maintenance
- **Move / Refurbishment Services** include the repair, refurbishment, modification, move, and recertification of existing Docking Systems for relocation of existing operations or for new installations of previously owned equipment
- **Boeing tooling** licensee

## Global Capabilities

- Centrally located in Louisville, KY with design offices in Louisville and Atlanta, GA
- Local sales and service support for domestic customers including MROs, Airlines, US Military, Aerospace OEMs and major logistics companies
- DAE sells Engine Stands, Access Stands, and tooling worldwide through the Malabar International representative network

## Flexible

As a customer driven company, DAE strives to meet customer expectations by tailoring our products to their exacting specifications

## Dependable

With our skilled and highly experienced team, DAE keeps both its products and customers operational at all times

## Responsive

DAE's policy is to have "boots on the ground" whenever and wherever a customer requires product support

*B777 tail dock – This docking system was preassembled for customer approval before shipment and was installed at the customer site by our team of technicians.*

*CFM56-3 engine stand - This engine stand continues to solve engine transport problems for some of the biggest names in aerospace manufacturing and maintenance.*

*Malabar International is a pioneering supplier of ground support and maintenance equipment for commercial, military, and business jet aircraft. Malabar's major product lines are Tripod and Axle Jacks, Fluid Dispensers, B787 and A350 Coolant Service Equipment, Nitrogen, Oxygen, and Strut Service Carts, Wheel/Brake Changers, Specialized Service Trailers, and Repair and Refurbishment. Malabar has a worldwide reputation for quality and service, with 24-hour online product support including emergency parts supply.*

*DAE Industries was founded in 1984 as a contract manufacturer and has since grown into a preferred supplier of aircraft maintenance equipment for commercial, military, and business aviation customers. DAE was acquired by Malabar in 2014.*
